

Note 1: Map out path first. Determine dependencies. Then determine time.

Note 2: Critical Path is normally shown in **RED**. Non critical path in **BLUE**.

Note 3: Use seperate tabs for each phase in WBS--best practice. Aggregate at end.

Note 4: Number of activities shown **MUST** equal number of level 3 activities in WBS.

Critical Path
135 Minutes
1 Day

Note 1: Map out path first. Determine dependencies. Then determine time.

Note 2: Critical Path is normally shown in **RED**. Non critical path in **BLUE**.

Note 3: Use separate tabs for each phase in WBS--best practice. Aggregate at end.

Note 4: Number of activities shown **MUST** equal number of level 3 activities in WBS.

Critical Path
7 Days

Note 5: A **BUFFER** can be used to show non-working time impacting the critical path!
