Course: Expert Projects Industry Skills | WUW0012 (English: expert projects industry-specific skills)

Project Management > Module 4 > Expert Viewpoints: Industry-Specific Skills

### What skills overlap between different industries in project management and which ones are unique to your industry?

- A project manager needs to be a good motivator ✓
- A good negotiator ✓
- A good conflict manager ✓
- A good coach ✓
- A good influencer ✓
- A good decision maker ✓
- A good team builder ✓
- Aware of different cultures that he or she is dealing with ✓
- If there is one skill that is unique to project management it is understanding the particular life cycle
